Perhaps ten years ago we might have found theorists who would have argued differently. But opponents of this view are surely hard to find today so accepting without further commentary the importance of having available a sound theory of choice for guiding descriptions of organizational behavior let us ask ourselves instead, how adequate for that purpose are currently available decision theories? An immediately noticeable characteristic of a disturbingly large number of presumably organizational decision theories is that they are indistinguishable from counterpart theories of individual choice behavior, even though in its flesh-and-bones reality we don't usually have much difficulty distinguishing an individual from an organizational

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Natalie Abbott**

This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be playful, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.
